ALUM-A-BRAKE™ ULTIMA “Q” SERIES

Alum-A-Pole Corporation, the leader in the pump-jack scaffolding industry for over 40 years, is proud to bring the building trades the same high-quality production standards with our Alum-A-Brake product line!

With 3 options available in the Alum-A-Brake Ultima “Q” Series, the Alum-A-Brake is the best brake in its class to depend on for fast, clean, crisp bends. With a 19 1/2" throat depth, you can work faster, saving valuable time on the job site. Combine with our accessories, and your professional package is complete!

- Easy, efficient hemming!
- Power lock snap for superior secure clamping!
- Replaceable hardened stainless steel jaw cover edge
- Replaceable PVC bending hinge edge
- Fold-up comfortable bending handles
- Ribbed frame castings for greater durability
- Anodized aluminum parts prevent metal oxidation discoloration transfer to material year after year
- ***Designed for easy installation of all Alum-A-Brake accessories and upgrades***

ALUM-A-BRAKE™ ULTIMA “Q” SERIES

Alum-A-Brake™ – Ultima “Q” Series Upgrade Parts

Q-CUT™ System Parts

Mounts on track to quickly and easily cut material.

Allows Q-Cutter to remain installed on the track without interfering with bending. Simply slide Q-Cutter back to stop. Quick release allows for easy removal for transport.

Works with Q-Cutter and Q-Cutter Stop. Lines up pencil marks to cutter wheels.

Maximizers

Adjustable measuring device designed for repeat cuts and bends. Simply set distances. No pencil needed. Automatically stack all cut pieces on maximizers. Coil cannot drop to the ground. Sold in sets of 4.

Q MEASURE™ Parts

Alum-A-Brake Worktable

A full size, lightweight, quick release, reversible table with measuring tape. Designed for fast and easy coil holder installation. Use with Coil Holder for extremely fast measuring of length and cutting of coil.

Measuring Arms

A fast measuring device designed for single bends and cuts without a pencil. Simply place coil on bend or cut side and lock brake for processing. Sold in sets of 2. Guide Bar required for installation.

Your Scaffolding, Brake and Vinyl Coil Answer!

ALUM-A-BRAKE™ ULTIMA “Q” SERIES

Alum-A-Brake™ – Ultima “Q” Series Accessories

Proudly Made in the USA!

Can be used with any Ultima “Q” Series Alum-A-Brake, or “Q” Series Coil Holder.

Removable in seconds. Grass-friendly. Makes brake virtually weightless.

Built in track-mounted Q-Cutter. Keeps coil secure – no unraveling. Mounts in seconds to Alum-A-Brake Table or to Alum-A-Legs.

Coil holders shown with roll of Pro-Trim Vinyl Coil.

Coil Holder with Legs

All **ALUM-A-BRAKE™** Ultima's are designed for fast and easy installation of all upgrades and accessories.
